Application Window:

All Computech applications submitted to the Transfers Department are entered in ATLAS. The office staff will review for any missing academic data for each applicant.
Please note: Any applicants missing data must provide any of the following (*) items:

4th & 5th grade standardized test scores:
English Language Arts*

Math*

4th, 5th & 6th grade assessment scores:
iReady

4th, 5th and 6th (Quarter 1) grades:
Course Grades*

Grade Point Average*

Attendance

Application Review Process:

The application review process contains a committee of diverse group of educators, representative and reflective of FUSD's student population.

*Graphic below includes a sample student data profile that the committee reviews; this is not to be misinterperted as requirement for the program

Communication to Applicants:

Transfers Department will begin offering placements via voice message or email. Those selected to Computech will receive a flyer containing orientation details. Students offered placement must contact the Transfers Department to accept or decline placement. Once all seats are full, all applicants will remain on the wait list and receive a denial letter. Applicants that apply for other schools will also receive a letter communicating your child's opportunities.

Acceptance/Waitlist Process:

The acceptance letter states that families must accept/decline placement by the due date stated. This reserves your child's attendance for Computech Orientation.

Acceptance: Enrollment at Computech requires attendance at the orientation meeting

Orientation Agenda: Learn key tips for success at Computech; basic student expectations; the elective courses offered at Computech; request desired elective classes by completing a course request online and co-curricular opportunities that Computech has to offer.

Waitlist process: Applicants on waitlist will be notified as space becomes available. Application waitlist is based on the committee results and ranked by review scores.
